State Issues Addressed

| Issue Questions | Responses |
|--|------------------|
| If the application is for the development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "Yes" to the following question. Answering "Yes" to Question 1a will result in the application being awarded the maximum amount of points that can be earned for the State-level questions. | |
| 1. Is the program application for the development of a CAP for a Comprehensive Nutrient Management Plan (102), Nutrient Management Plan (104), or Drainage Water Management Plan (130)? If answer is "Yes," do not answer any other State-level questions. If the answer is "No," proceed with evaluation to address the remaining questions. | 400 Point(s) |
| Phosphorus Priority: | |
| 2. Is the program application located in a phosphorus priority watershed? | 100 Point(s) |
| Watershed Impacts: | |
| 3. Does the program application include core conservation practices planned for phosphorus reduction within an existing State agency or other non-USDA water quality project area (Example: State or county watershed plan, NGO focus watershed) that addresses the same or similar watershed impairments (excess nutrients or sediment)? | 100 Point(s) |

| | |
|--|-------------|
| Collaborative Efforts - Edge of Field Monitoring: | |
