

East Fork Little Miami Watershed

2021 National Water Quality Priority Watershed Project

National Water Quality Initiative: Ohio

As USDA's premiere water quality initiative, NWQI provides a way to accelerate voluntary, on-farm conservation investments and focused water quality monitoring and assessment resources where they can deliver the greatest benefits for clean water.

Together, Ohio NRCS and the Clermont, Brown, Clinton and Highland Soil and Water Conservation Districts (SWCDs) will utilize \$426,527 to implement core water quality practices in the Gladly Creek Watershed, Solomon Run Watershed and Five Mile Creek Watershed.
