Reduce inputs

Lift your bottom line

Pay it forward—Soil health for profit

Build resilience during climate uncertainty

Wind erosion and soil demo included

8:30 Registration

9-4:30 Workshop & Field Demo

Lunch provided

"When people obtain the tools and the knowledge and take action around building soil health, there are benefits for the health of people, planet, profit and their purpose. It just gets me so excited, that we're really working on the next frontier of discovery, and that we're barely scratching the surface of what is possible."—Nicole Masters

Cost: \$30 per person, lunch included. Space is limited-- Please register by June 10
