Field Office and TSP Certification Plan Review Checklist

Conservation Activity Plan – Forest Management Plan Practice Code (106)

(Refer to the electronic Field Office Technical Guide, Section III, Conservation Activity Plans Technical Criteria for a complete listing of CAP Criteria)

Purpose: The purpose of the checklist is to provide guidance for elements that need to be addressed or included in the Conservation Activity Plan (CAP). The checklists are recommended for use by NRCS staff and Technical Service Providers, but are not required. NRCS staff can use the checklist for administrative review of the sample plans submitted as part of the certification process as well as all other plans submitted after a TSP is certified. TSPs can use the checklist for a general guidance of elements to include in the plan, but it is still the TSP's responsibility to follow the CAP Plan Development Criteria for specific elements and the detail of each element to be included.

Instructions: The checklist should be completed and submitted with the sample plan or the hardcopy of the client's plan as described below:

- **Prospective TSP's** should submit the completed checklist and sample plan by mail or email (complete plans should be sent as a single electronic file for example pdf, word or scanned file) to the appropriate State TSP Coordinator for technical review to become a certified TSP. A list of State TSP Coordinators can be found at: <https://techreg.sc.egov.usda.gov/RptStateContact4Admin.aspx>.
- **Certified TSP's** should submit the completed checklist, hardcopy and electronic copy of the client's plan to the local NRCS Field Office or appropriate State TSP Coordinator for administrative review.
- **NRCS Staff** should complete the checklist for administrative review and place the completed checklist in the client's file. Administrative review involves a review of the content of the plan to ensure all required elements are present, but does not involve technical review for correctness. (Please Note: If technical review is needed, the completed checklist and client plan should be forwarded to the appropriate State Office staff or NHQ for technical review.)

Please Note: Should a State not have the technical specialist to conduct the technical review, requests can be submitted (by the State Office) to NHQ for review. For NHQ review please submit the complete plan and checklist by mail or email to the TSP Team. See below for address information.

Forest Management Plan (Code 106) Checklist

State/County:	Date Plan Submitted:
Producer/Owner:	Technical Service Provider:
<p>A Forest Management Plan (FMP) is a site specific plan developed for a client, which addresses one or more resource concerns on land where forestry-related conservation activities or practices will be planned and applied.</p> <p>Planning policy is found at the URL: eDirectives http://directives.sc.egov.usda.gov/. Navigate to: Handbooks; Title 180 Conservation Planning and Application; National Planning Procedures Handbook; Part 600 Subpart B – Framework for Planning, 600.13 Planning Directives.</p> <p>Minimum components of a Forest Management Plan (FMP) shall include:</p>	
1.	Background and site information: This element provides a brief description of:
<input type="checkbox"/>	<ul style="list-style-type: none"> a. Landowner information-name, address, operation, size; b. Location and plan map of parcel; c. Documentation of existing practices; d. Past harvest history; e. Identification of resource concerns.
2.	Client Objectives, which may include these considerations and others:
<input type="checkbox"/>	<ul style="list-style-type: none"> a. Expected income; b. Forest stand improvement; c. Wildlife habitat/riparian areas; d. Recreation; e. Agroforestry; f. Pollinator habitat and protection.
3.	Existing Conditions:
<input type="checkbox"/>	<p>Identify resource concerns based on an inventory to assess these concerns and opportunity for treatment. The inventory will typically include:</p> <ul style="list-style-type: none"> a. Description of the inventory process (generally accepted forest inventory methods); b. Forest management unit and stand boundaries; c. Site index, basal area, species and size class; d. Potential woodland products, soil conditions, slopes, topography and aspect; e. Natural and cultural features; f. Roads and wildfire risk (surface and crown fires); g. Risk of insect and disease infestation; h. Fish and wildlife species and habitat elements; i. Noxious and invasive species; j. Water quality and other important features as applicable.
4.	Desired Future Conditions:
<input type="checkbox"/>	<p>Goals such as stocking, trees per acre, basal area, species composition, wildlife, pollinator habitat and protection, recreation, etc. for stands where practices/activities are to be implemented to meet future goals.</p>

5.	Forest Management Plan Documentation:																																														
<input type="checkbox"/>	1. Cover page with signature blocks.																																														
<input type="checkbox"/>	2. Forest management plan map including boundaries, fields/stands, scale, north arrow, stand boundaries and appropriate map symbols.																																														
<input type="checkbox"/>	3. Soils map including legend, interpretations, and suitability index for forest activities. The Web Soil Survey can provide the needed information: http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm																																														
<input type="checkbox"/>	4. A wetland delineation map and associated wetland compliance documentation (Food Security Act of 1985), if applicable.																																														
<input type="checkbox"/>	5. Resource Assessment Results (wind and water erosion, water availability, soil fertility, etc...																																														
<input type="checkbox"/>	<p>6. Conservation plan (record of decisions) (<i>MS Word Document or the national common forest management plan template</i>) to include:</p> <ul style="list-style-type: none"> a. Planned practice (s) with NRCS practice name(s) and codes; b. Amounts to be applied in NRCS practice units (no.), (ft), (ac); c. Schedule for implementation; d. Primary NRCS forestry and agroforestry practices-When any of the following practices are used in this plan, the site specific specifications shall be developed in the template, NRCS approved Jobsheet or separate plan. <table border="1" data-bbox="430 968 1144 1556"> <thead> <tr> <th>Code</th> <th>Practice Name</th> </tr> </thead> <tbody> <tr><td>311</td><td><input type="checkbox"/> Alley Cropping</td></tr> <tr><td>379</td><td><input type="checkbox"/> Multi-Story Cropping</td></tr> <tr><td>380</td><td><input type="checkbox"/> Windbreak/Shelterbelt Establishment</td></tr> <tr><td>381</td><td><input type="checkbox"/> Silvopasture Establishment</td></tr> <tr><td>383</td><td><input type="checkbox"/> Fuel Break</td></tr> <tr><td>384</td><td><input type="checkbox"/> Woody Residue Treatment</td></tr> <tr><td>394</td><td><input type="checkbox"/> Firebreak</td></tr> <tr><td>472</td><td><input type="checkbox"/> Access Control</td></tr> <tr><td>490</td><td><input type="checkbox"/> Tree/Shrub Site Preparation</td></tr> <tr><td>612</td><td><input type="checkbox"/> Tree/Shrub Establishment</td></tr> <tr><td>650</td><td><input type="checkbox"/> Windbreak/Shelterbelt Renovation</td></tr> <tr><td>654</td><td><input type="checkbox"/> Road/Trail/Landing Closure and Treatment</td></tr> <tr><td>655</td><td><input type="checkbox"/> Forest Trails and Landings</td></tr> <tr><td>660</td><td><input type="checkbox"/> Tree/Shrub Pruning</td></tr> <tr><td>666</td><td><input type="checkbox"/> Forest Stand Improvement</td></tr> </tbody> </table> <ul style="list-style-type: none"> e. Additional practices may be needed to meet all the landowner's objectives. For the following practices the plan must include the planned amount, fields where the practice is to be applied and the planned year of application. <table border="1" data-bbox="412 1715 1278 1971"> <thead> <tr> <th>Code</th> <th>Practice name</th> </tr> </thead> <tbody> <tr><td>314</td><td><input type="checkbox"/> Brush Management</td></tr> <tr><td>315</td><td><input type="checkbox"/> Herbaceous Weed Control</td></tr> <tr><td>327</td><td><input type="checkbox"/> Conservation Cover</td></tr> <tr><td>338</td><td><input type="checkbox"/> Prescribed Burning</td></tr> <tr><td>342</td><td><input type="checkbox"/> Critical Area Planting</td></tr> <tr><td>382</td><td><input type="checkbox"/> Fence</td></tr> </tbody> </table>	Code	Practice Name	311	<input type="checkbox"/> Alley Cropping	379	<input type="checkbox"/> Multi-Story Cropping	380	<input type="checkbox"/> Windbreak/Shelterbelt Establishment	381	<input type="checkbox"/> Silvopasture Establishment	383	<input type="checkbox"/> Fuel Break	384	<input type="checkbox"/> Woody Residue Treatment	394	<input type="checkbox"/> Firebreak	472	<input type="checkbox"/> Access Control	490	<input type="checkbox"/> Tree/Shrub Site Preparation	612	<input type="checkbox"/> Tree/Shrub Establishment	650	<input type="checkbox"/> Windbreak/Shelterbelt Renovation	654	<input type="checkbox"/> Road/Trail/Landing Closure and Treatment	655	<input type="checkbox"/> Forest Trails and Landings	660	<input type="checkbox"/> Tree/Shrub Pruning	666	<input type="checkbox"/> Forest Stand Improvement	Code	Practice name	314	<input type="checkbox"/> Brush Management	315	<input type="checkbox"/> Herbaceous Weed Control	327	<input type="checkbox"/> Conservation Cover	338	<input type="checkbox"/> Prescribed Burning	342	<input type="checkbox"/> Critical Area Planting	382	<input type="checkbox"/> Fence
Code	Practice Name																																														
311	<input type="checkbox"/> Alley Cropping																																														
379	<input type="checkbox"/> Multi-Story Cropping																																														
380	<input type="checkbox"/> Windbreak/Shelterbelt Establishment																																														
381	<input type="checkbox"/> Silvopasture Establishment

	395	<input type="checkbox"/>	Stream Habitat Improvement and Management
	560	<input type="checkbox"/>	Access Road
	578	<input type="checkbox"/>	Stream Crossing
	580	<input type="checkbox"/>	Streambank and Shoreline Protection
	595	<input type="checkbox"/>	Integrated Pest Management
	643	<input type="checkbox"/>	Restoration and Management of Declining Habitats
	644	<input type="checkbox"/>	Wetland Wildlife Habitat Management
	645	<input type="checkbox"/>	Upland Wildlife Habitat Management
	647	<input type="checkbox"/>	Early Successional Habitat Development/Management

NOTICE: Practices beyond the basic forestry/agroforestry practices may be included in the plan, but the design and implementation of these will be conducted by an appropriately certified TSP for those practices.

7. For management practices include the planned practices and site specific specifications on how, when and extent (acres/number) each practice will be applied.

8. For engineering/structural practices include when and extent each of the planned practices will be applied, also include location on the Conservation Plan Map.

6. Deliverables:

1. Complete hardcopy for the client;
 2. Complete hardcopy and electronic copy of the plan for NRCS:
 a. Digital Conservation Plan Map with fields, features and structural practices located;
 b. Digital Soils Map.

Optional-Use of the Plan Template developed for this CAP is optional, but recommended. Managing Your Woodlands Natl ATFS FS NRCS Joint Mgt Plan Template_elec Sign_21Feb11.pdf or Managing Your Woodlands Natl ATFS FS NRCS Joint Mgt Plan Template_21Feb11.doc). Both templates and a User's Guide are available on the TSP website <http://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/programs/technical/tsp/?&cid=stelprd1046968>.

Yes	No	Checklist Approval
		I have administratively reviewed this Forest Management Plan and it meets all the FY2014 Forest Management Plan Criteria Practice/Activity Code (106).
